Personal and Educational Details:

Address: Unit 21, Floor 11, No:7

Street No:17, Hesabi Street,Fayasi Ave.

Tehran, Iran.

E-mail: ghanaieroxana@gmail.com, roxanaghanaie@yahoo.com

Fax: +98 21 22224961

Cellular Phone: +98 912 3182084

Work address: Mofid children Hospital, Shariati Ave, Postal Code 1546815514

Date of Birth: 13th August 1966

Nationality: Iranian

Marital Status: Married

Iranian Medical Council Registration Number: 35682

General Education: Gifted and Talented Students School,
Tehran, Iran

Medical School: Tehran University Medical School,
1992. (First rank in university entrance exam for entrance to
Tehran Medical School)

Residency Training: Shahid Beheshti University Medical
School, Tehran, Iran. 1993-6 .Board Certificate in Pediatrics (1996)

Subspecialist Training: Shahid Beheshti University Medical School, Tehran, Iran. 2007-9 .Board
Certificate in Pediatrics Subspecialis(t3rd rank in Final exam),pediatrics Infectious Diseases,2009.

Participated in: “A new training model for Paediatric HIV initiative in Europe 2012” Course.
“ changing the conversion on Flu:Influenza workshop” 2018

And many other workshops

Language: passed academic IELTS 2008

Computer skills: passing DOS and applied softwares and windows courses in Sharif University
of Technology 2001

Advanced widows 98 in Tehran complex of Technology 2002

Articles presented(oral or poster) in International conferences:

Sensitivity and specificity of world heritage! organisation proposed criteria for pertussis. (Poster). American!

Thoracic Society International Conference, New Orleans: 14-19 May! 2010.

Urinary soluble triggering receptor expressed on myeloid cells-1 levels for acute bacterial Infection. 5th Ditan International Conference on Infectious Diseases (DICID), Beijing-China: 2011

Determination cut-off value of urinary soluble triggering receptor expressed on myeloid cells-1 levels for acute! bacterial Urinary Tract Infection (poster). The 7th World Congress of the World Society for Pediatric Infectious Diseases Melbourne- Australia:16-19 November 2011

Re-emerging of pertussis in Iranian school-ageChildren (poster). European society of pediatric infectious diseaCongress, Thessaloniki- Greece: May 2012.

Group A streptococcus emm type in iranian children with pharyngitis. 32nd Annual Meeting of the European Society for Paediatric Infectious Diseases, Dublin, Ireland, May 6-10, 2014.

Prevalence of blaPER-1 and blaVEB-1 genes among ESBL-producing Acinetobacter baumannii isolated from two hospitals of Tehran, Iran. 2nd World Congress and Exhibition on Antibiotics and Antibiotic Resistance, Manchester, UK, October 13-15, 2016

Complications Following Bacillus Calmette-Guérin Vaccination in Children Under the Age of 18 Months: An Iranian Multi-center Study. Acceptance of E-Poster Viewing at the 34th Annual Meeting of the European Society for Paediatric Infectious Diseases, Brighton, UK , May 10-14, 2016.

Detection of most common gram-negative bacteria producing pulmonary infections in cystic fibrosis35th Annual Meeting Of The European Society For Paediatric Infectious Diseases, Madrid, Spain , May 23-27, 2017.

Hospital-based vaccine safety active surveillance system: proof of concept study on risk of aseptic meningitis and immune thrombocytopenic purpura following measles-mumps containing vaccination. Annual Meeting Of The European Society For Paediatric Infectious Diseases, Madrid, Spain , May 23-27, 2017. (As A Cooperator)

And annual International Clinical Microbiology Conferences
